

Package ‘RKEELjars’

January 19, 2016

Type Package

Title Java Executable .jar Files for RKEEL

Version 1.0.2

Date 2016-01-19

Author Jose Moyano [aut, cre], Luciano Sanchez Ramos [aut]

Maintainer Jose Moyano <i02momuj@uco.es>

Description KEEL is a popular Java software for a large number of different knowledge data discovery tasks. Furthermore, RKEEL is a package with a R code layer between R and KEEL, for using KEEL in R code. This package includes the .jar files necessary for RKEEL algorithms execution. For more information about KEEL, see <<http://www.keel.es/>>.

SystemRequirements Java (>= 7.0)
